

The border between ordinary and extraordinary lies in the details, and in the light that frames them. **Principal Sloan** Architectural, Custom, and Border (ACB) solutions transform edges into statements, lines into landmarks, and spaces into experiences. We illuminate the in-between, where design steps out of the blueprint and into brilliance.

FROM ORDINARY^{TO} EXTRAORDINARY

UNLEASH THE POWER OF LED BRANDING

Architectural

We offer the industry's broadest mix of LED architectural illumination solutions designed to provide even brightness, ease of installation, low maintenance, and lower energy costs.

Custom

The Principal Industries alliance of five brands brings years of experience together to craft custom solutions that exceed expectations and streamline the installation process.

Border

In architecture, borders aren't boundaries – they're opportunities. Our LED border and edge lighting adds sleek, dazzling illumination to endless applications.
