INFINITE POSSIBILITIES

Total RGB Control.

DMX Infinity puts advanced RGB lighting control at your fingertips. Designed specifically for the sign industry, this powerful DMX controller delivers precise, highly customizable control for dynamic RGB installations. From nine solid colors and holiday themes to custom shows, chase effects, and movement patterns, DMX Infinity gives you the flexibility to create lighting experiences that stand out. And with **Principal Services'** certified installation, programming, and on-site support, you have the expertise to bring your vision to life from start to finish.

Includes custom programming written for your project to include:

- Nine solid colors – Red, Green, Blue, Cyan, Orange, Yellow, White, Purple, and Pink
- Five holidays – Valentine's Day, St. Patrick's Day, Patriotic, Christmas, and Breast Cancer Awareness
- Up to five custom shows customer-specified
- Chase and movement effects

MANTECA
