

FIND THE SWEET SPOT OF BRIGHTNESS & IMPACT

Not all cabinet sign projects have the same priorities—and that's exactly why our stik lineup gives you options.

Whether you're focused on maximum value, premium performance, or the perfect balance of both, Tap Out Hanley One Stiks, Prism Synergy Stiks Gen 2, and Streamliner Gen 2 each deliver reliable illumination tailored to your application and budget.

MOST EFFICIENT OPTION

PRISM SYNERGY STIKS GEN 2

High-performance 24V LED illumination for new & retrofit sign cabinet applications

\$\$\$ /Lumen

- Available in 7100K, 6500K, 5700K, 5000K, 4100K, and 3000K; standard T-12 lengths from 18" to 120"
- Brighter, more uniform illumination with enhanced optical performance
- Integrated lens and housing design for improved durability and reliability
- Constant current design eliminates light loss across the length of the stik
- Fully compatible with previous-generation installations

TAP OUT™ HANLEY ONE STIK

High-performance 24V LED illumination for new & retrofit sign cabinet applications

\$\$ /Lumen

- Available in 7000K; standard T-12 lengths from 18" to 120"
- Constant current design eliminates light loss across the length of the stik
- Fewer connection points minimize potential points of failure

STREAMLINER GEN 2

LED lighting solution for retrofit light box applications

\$ /Lumen

- Available in 7000K; standard T-12 lengths from 30" to 120"
- No power supply needed –built-in driver direct-wired to Swift Connect system for faster installation
- Fully compatible with previous-generation installations
